

INTRODUCTION

Oakhaven Capital was established in June 2011 by individuals who shared a common goal to build a fund management company that reflects their views on what investors really want from the industry. The Oakhaven team is as follows: Johan Roos, Michael Creedon, Bruce Thistlewhite and Jeremy Berman. Between us, we have more than 50 years of cumulative market experience in South African Fixed Income and Emerging Markets.

FUND OBJECTIVE

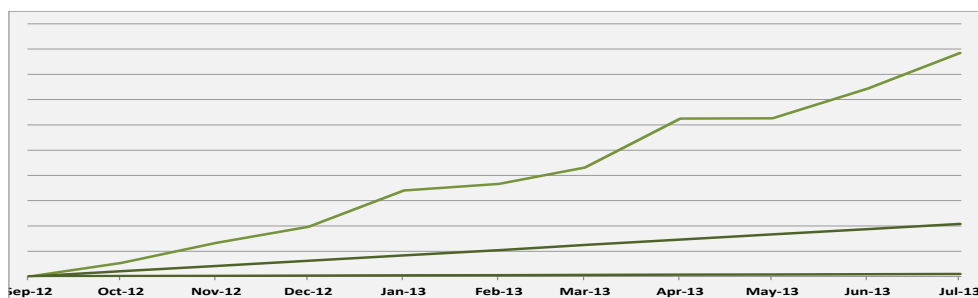

Our aim is to deliver consistent levels of return for our investors of 15% to 20% p.a. on a 3 year rolling cycle, as we set new standards in transparency and service. Our focus is based in the SA Fixed Income market, where we look to generate returns through our core investment strategies. We create a return blended from cyclical, secular relative value and directional opportunities across government bonds, cash and interest rate derivatives such as FRAs, Swaps and Options.

MONTHLY COMMENTARY

The trend from June continued in July with a little less volatility due to liquidations having taken place and most of Europe being on holiday. The market continues to look at key US data points for direction and the beginning of tapering with consensus being the end September. Local markets have drifted higher off the back of these expectations with the curve starting to price in hikes towards the end of 2014. Key benchmark government R186 bonds closed at 8.16% after opening the month 35bp lower.
