

INTRODUCTION

Oakhaven Capital was established in June 2011 by individuals who shared a common goal to build a fund management company that reflects their views on what investors really want from the industry. The Oakhaven team is as follows: Johan Roos, Michael Creedon, Bruce Thistlewhite and Jeremy Berman. Between us, we have more than 55 years of cumulative market experience in South African Fixed Income and Emerging Markets.

FUND OBJECTIVE

Our aim is to deliver consistent levels of return for our investors of 15% to 20% p.a. on a 3 year rolling cycle, as we set new standards in transparency and service. Our focus is based in the SA Fixed Income market, where we look to generate returns through our core investment strategies. We create a return blended from cyclical, secular relative value and directional opportunities across government bonds, cash and interest rate derivatives such as FRAs, Swaps and Options.

MONTHLY COMMENTARY

August began with the continuing speculation of when the Fed would begin with the normalisation of interest rates in the US. The unanticipated Chinese devaluation was a major policy shift from a global perspective. Global markets endured some incredibly volatile trading sessions with the emerging market complex bearing the brunt of the volatility. The Fed is facing a very difficult decision next week. Inflation has yet to manifest itself & global growth is in the doldrums. Rand has looked very vulnerable in the midst of all this turmoil. The SARB will have to balance the vulnerability of the Zar to global pressure versus an economy that is in a significant downturn.
